

Integration engineer

PEER Group GmbH

Smart manufacturing starts with factory automation software

PEER Group is the largest supplier of factory automation software for Smart Manufacturing and Industry 4.0 in semiconductor and related industries.

We provide innovative software solutions and consulting services to semiconductor, photovoltaic, pharmaceutical, and other high-tech industries. In addition, we help lower the cost of automation for our customers by solving their most challenging equipment automation, data management, and custom application development problems.

PEER Group's European branch, PEER Group GmbH, is located in Dresden, Germany and focuses on Equipment Automation Framework (EAF) based equipment integration and Automation Capabilities Management (ACM) consulting services.

Integration engineer (equipment/factory application integration and testing)

Based in Dresden or Regensburg, Germany and Villach, Austria

You are experienced in the field of equipment and/or factory application integration and equipment testing for automated manufacturing. You like to travel and work abroad, and you enjoy working with international multicultural teams. Accordingly, you have good oral and written communication skills in English and German.

We would be happy to receive your letter of application. Your expertise should include:

- Experienced with integration of equipment with MES and other factory applications
- Practical knowledge about definition of equipment interface test scenarios
- Expertise in conducting equipment automation tests
- Expertise in using test tools and scripting and programming languages
- Experience with databases (Oracle, MS SQL Server, MySQL) desirable

Successful candidates will have sole responsibility for:

- Writing requirements documents and creating alignment with customer goals
- Close interaction with customers and automation experts
- Sole responsible equipment integration and equipment testing activities at our customers
- Independently plan, prepare and conduct equipment tests at equipment suppliers
- Provide operational support for equipment communication issues at our customers
- Communication with equipment suppliers.

About PEER Group

PEER Group is headquartered in Kitchener-Waterloo, Ontario, Canada, with an office in Dresden, Germany. A privately-held company, PEER Group currently employs over 195 people worldwide.

We are an equal opportunity employer. Employment decisions are made on the basis of qualifications, ability and performance. We welcome inquiries from everyone and value diversity in our workplace. If you require accommodation in completing the application process please email recruit@peergroup.com or call HR at 49-351-2139000. If you are contacted regarding this position, please advise HR of accommodation measures you may require during our interview process. Of course, we will address these matters with respect and confidentiality.
