

Graduate Program within Global Commercial Field

Your vision is ambitious

Just like ours. Our people are our success. As one of us, you will contribute to engineering excellence for the high-tech markets of the future, including semiconductors, batteries, pharmaceuticals, biotechnology, and data centers. At Exyte, you will be part of a global community of challenge seekers who are ambitious and passionate about innovation. Together, we will build on our company's long history and keep on leading the way to a better world.

Discover your role & responsibilities

Exyte Germany is inviting all graduates in Global Commercial to apply for our comprehensive Graduate Program 2023. We offer an 18-month development journey as Exyte's Commercial Manager in the high-tech industry with an exciting career development with a global focus, mentoring & coaching and other benefits. This program integrates commercial, accounting and product management areas, including a one-year global project phase at one of our worldwide locations. You could work with pretty much anyone we have a contract with, from customers to suppliers to partners. Developing soft skills in dealing with customers is crucial in this role, e.g. relationship building, influencing and negotiating to get the best possible value for our customers suppliers and partners. The goal of this program is to impart technical and process-related know-how as well as to apply and integrate what has been learned within ongoing global projects. This will give you the opportunity to learn about our core business first-hand, as well as to experience our company values while it is executed. We will enable you to actively exchange ideas with mentors and colleagues and we will support your continuous learning process.

Your Profile: We hire for competencies, not for hard skills only

You have a high level of interest and curiosity in working with technical products and services, as well as the willingness and courage to try new things, to think innovatively and to get things done with enthusiasm. We are open to all graduates in disciplines such as Business Management, Marketing, International Business Studies, Operations Management, Manufacturing, Engineering or any other near equivalent courses.

- Successfully completed studies at the time of the program start (Bachelor, Master, advanced)
- Work experience is an advantage, but not mandatory
- You should be motivated to travel to our various global project locations in different countries
- Fluency in written and spoken English required. German is a plus, but not required.

Reasons for choosing the Exyte Graduate Program

- Attractive career development with a clear career goal, attractive salary and benefits
- Cross-business development in Exyte's core service areas
- International experience within 12 months global project phase at one of Exyte's locations
- Personal networking opportunities, mentor, coach, buddy & continuous support
- In-depth & interdisciplinary experience & hands-on project work across all Exyte Services
